Neil's Friend,  
Lexington Press.

A press reporter met Alf. W. Burnett, the detective who has figured so largely in the Ashland tragedy, at the St. Nicholas Hotel, Wednesday. Mr. Burnett is still strongly suspected of having committed the crime than Neal, Croft and Ellis committed the crime. He says that Neal's acquittal is certain and only a matter of form, and that he has the evidence which he says will prove it. "The people," he said, "asked me the nature of the evidence, but Mr. Burnett replied: "I would not tell my mother, who, I know, is praying for my safety, in that case." Mr. Burnett then talked for some time on the subject, as they have been doing time and again, when he gave the snap away, by saying he believed the negro whom he arrested some time ago, was the guilty man, and applying the name of Lundy. He did not say to whom he referred, but it is clear that these negroes at their examining trial, Mr. Burnett says he will be vindicated, and that the Ashland people will see that they have hung two innocent men.

One reason why so many young mothers do not look so tidy and attractive as it is the hon. duty of all the women to look is that they do not accept the improved modes of dress, and when adapting themselves to it; for instance it is impossible to care for a baby as it should be cared for, and yet to wear as good a dress as one would if you were simply wearing them in a simple manner. The usual way when engaged in this exception should be of some material that will bear spongeing; then a sponge and a little of strong ammonia should be kept near by to hand. The dress should be an unusing supply of different sizes and dear. Do not fail to have at least a few of the same length as yours, and of two or three widths. A white one of several inches wide, with white machine embroidery, is advantageously becoming to most women, and will save the cost many times over by preserving the dress longer. Clothing your self and then enjoying your baby. All other pleasure you may hope to have repeated, but the joy of being the mother of a baby is one which may be yours but once, and for so short a time that it will seem almost dream-like to me.

**Mrs. Mackay's Jewelry.**

The jewelry of Mrs. John W. Mackay has been amply described in Paris journals.

Many of the stones are unique and the ornaments are superbly made and characterized as much by the artistic beauty of their workmanship as by the splendor of the gems worn. They are composed of gold, silver, diamonds, jet of nephrite which was exhibited at the Parisian Universal Exhibition of 1867. It is valued at \$300,000 and comprises diamond bracelets, rings, ear-rings and necklace, with diamond set necklaces, bracelets and diamonds.

The necklace has five rows, the pearls are of low water, being the size of the larger blackberries, and the row in the uppermost being larger than a large pea.

Each pearl is perfect in color and shape, the strings having been composed with fine green silk.

The bracelet is composed of diamonds.

A set of turquoise with diamonds.

A set of turquoise is unique so large and fine fine in color are the gems. They are said to surpass the parure of the same stones belonging to the Queen of Spain.

For the last year there is a long pair of small fern leaves in diamonds, studed with diamond dew drops. One bracelet is a diamond serpent that encircles the wrist, about the middle of which it is formed of a single row of very large diamonds, 300 in number. These tremures are not kept in the reservoir of Mrs. Mackay, but in a bank. These continue to increase, and are now of great value.

## THE DAILY BULLETIN.

MONDAY EVENING, FEB. 25, 1884.  
BOSSER & McCARTHY,  
Publishers and Proprietors,  
To whom Address All Communications

WHAT are eggs? the buyer asked;  
The grocer smiled and turned his head,  
A few eggs, he said.  
The buyer jumped a dozen feet,  
Cracked his heels and said the Dicktonal!  
I'm truly glad that, because,  
The last I got were chickens.

BUSINESS is looking up.

Eggs are sold to-day for 16 cents a dozen.

Tus Relief Committee is still doing good work.

Tus Chronicle estimates the loss at Augusta at about \$300,000.

MASTER FRANCIS YAGO will hereafter deliver the DAILY BULLETIN to our subscribers in the Fourth ward.

The streets in various parts of the city have been thoroughly cleaned and are in better condition than they have been for years.

DR. JOHN P. PHISTER, Chairman of the Relief Committee, received this morning by express \$50 cash from Gordonsville Va., additional to the boxes of clothing received a few days ago.

The farm of fifty-five acres, near Lewisburg, belonging to Mrs. R. J. Jones, of Cincinnati, was sold on Saturday, at public sale, by Mr. G. C. Goggin to Patrick Gantley for \$147 an acre.

The town of Chester has very wisely restrained stock of all kinds from running at large in the streets and while the fences of the residences are down. Maysville ought to do the same thing.

A HOWLING mob took possession of the relief depot at Portsmouth on Saturday. The disgraceful scene led to the promulgation of an order that no more able-bodied men would hereafter be aided.

REV. A. N. GILBERT desires to rent a good dry house for from \$250 to \$300 per annum immediately. Address through postoffice. If he does not obtain a house in a few days he will store his goods and send his daughters away to school.

There were eight persons joined the Southern Methodist Church yesterday by letter. Mrs. Perry and her two daughters, Mrs. Davis and her two nieces, Mr. W. O. Giani and wife, Mr. Phillips joined the church last Sunday week.

MR. CHARLES TAYLOR, an experienced pharmacist of Indianapolis, has been employed in the prescription department of Messrs. Chenoweth & Co.'s drug store. Mr. Taylor is a native Kentuckian and is a very desirable acquisition to the business circle of the city.

Mr. F. W. Pagenhoff, special examiner of the U. S. Pension Office, was in Maysville, Saturday, and called to see the BULLETIN.

The Bracken Chronicle says: Col. F. S. Andrews maintained his former reputation as a big, whole-souled, charitable man. He has fed sufferers by the score and contributed of his means and by his valuable labor to alleviate the suffering and destitution of our people. There are few such big hearted men in the composition of any community as Col. Andrews. Long may he live and prosper.

### DEVILISH DEED.

Mollie Taylor's Throat Cut From Ear to Ear by Charles Green, a Jealous Lover.

Between nine and ten o'clock Sunday night a tragedy that came very near being a fatal one was enacted in Johnson's Alley, the principals being Mollie Taylor, a colored girl about twenty years of age, and Charles Green, a jealous lover. The two had been on terms of intimacy for some time past, but of late the girl had seemed to prefer the company of other men and thus aroused the jealousy of Green. On Sunday night he called to see her and, it is said, she refused to have anything to do with him. He was furiously enraged and dragging the woman into the alley, cut her throat from ear to ear, according to her statement, threw her over the fence with the intention that her body should go into a sewer near by. The wound was a very gashly one but fortunately did not sever the jugular vein or any artery that would cause death. It was dressed by Dr. A. G. Browning, who thinks the girl will recover. The officers pursued Green promptly, but up to this time he has managed to elude them and is still at large. He is supposed to have left the city as soon as the deed was done.

MR. GEORGE C. GOOGIN sold, on Saturday, the following property belonging to Mr. C. P. Shuckley:

1 cow	\$4.00
1 cow	25.00
1 cow	40.00
1 cow	45.00

1 old horse	25.00
1 old horse	30.00
1 old mable	4.50
Total	90.00

The following is from the Enquirer of Saturday: A boat belonging to Thomas R. Phister, of Maysville, Ky., was hired by the officers in charge of the Hammond street police station during the flood. The bill, which amounted to \$20, was donated by Mr. Phister to the sufferers.

A VAULABLE SUGGESTION.

Commercial Gazette, February 19th.

Brick houses which have been whole or part submerged during the flood can be rendered habitable and safe from dampness by applying a coat of paint, which, dry, thermically seals the inside surface and drives the damp outward, the paint can be papered over and no water stain will result. This has been recommended by the author of the book on high water of 1883 and by experiments in years past.
